

# Literacy Assessments for Bilingual & Multilingual Learners

## The Issues We Address

Monolingual assessments are used with bilingual children

Paper-based and human-administered assessments

Need for an adequate benchmark

## Our Solution

A fully-automated, standard-aligned, bilingual assessment that measures language development and literacy skills in English and Spanish, and generates reliable data and meaningful reports.

### BLAST Helps Educators:

- Measure program effectiveness
- Evaluate student needs
- Support teacher instruction
- Increase literacy readiness
- Provide reports to parents

### Skills Assessed

- Listening
- Speaking
- Reading
- Writing
- Critical thinking

### Key Features

#### It's bilingual!

Both languages are assessed in one sitting

#### It takes less than 30 minutes!

To assess both languages, all children can test at the same time

#### It's game based!

Children enjoy taking the assessment

#### It provides actionable data!

To inform instruction in both languages, bridging knowledge
